

# TECHNOLOGY CHECKLIST

***Before the session begins, have the following in place:***

- Basic Telemedicine Equipment
- Camera with zoom and scan capabilities
  - Microphone placed away from monitor's speakers

- Secure Online Meeting Space
- Encrypted Zoom or other encrypted videoconferencing platform recommended

- Technical support on both sides of the connection
- Connection should be tested with new sites prior to first provider session

- Phone number or way to reach the patient site if technical difficulties arise
