Presents

## Understanding Trauma-Focused Approaches

An ECHO-Telementoring Series

### About

The Telehealth ROCKS team invites you to attend a 3-part ECHO series concentrated on serving children who need focused tools, supports, and interventions following trauma exposure. Learn how to identify children in need of additional supports, what to expect from a well-trained trauma-responsive mental health provider, and how to successfully collaborate with mental health professionals. You'll also receive an introduction to widely-used evidence-based interventions such as Trauma Focused-Cognitive Behavioral Therapy (TF-CBT.)

### Join Us

June 1 • June 8 • June 15

Each sessions is 1:00- 2:30 PM CST

### Target Audience

Committed and curious professionals who interact with children who have experienced trauma and may benefit from intensive mental and behavioral health support. This includes teachers, administrators, community providers and others.

### Presenters

- Erin Hambrick, PhD, Clinical Child Psychologist
- Melissa Maras, PhD, Clinical-Community Psychologist
- Joah Williams, PhD, Clinical Psychologist
