

# **ALL UNDER ONE ROOF:** **Navigating Social Determinants in** **Children with Medical Complexity**

**Children with medical complexity often have chronic multidisciplinary care needs, functional limitations due to medical devices, and require intensive resources.**

## **SERIES DATES February 9 • March 9 • April 13**

All sessions are from 12-1 PM CST. This is an ECHO training series and each session covers different material. Please plan to attend all 3 dates.

## **ABOUT**

Join us for an ECHO series focused on the social determinants of health and children with medical complexity. We use the Project ECHO model to create a virtual learning community that brings together local school staff with pediatric experts. We'll discuss social determinants, refugees, health literacy and more. This year's All Under One Roof series will do a deeper dive into topics and cover different material. We encourage both past and new participants to attend. Certificates of attendance will be provided after the series.

## **PRESENTED BY**

Timothy Ryan Smith, MD, Pediatrician at The University of Kansas Health System

Emily Goodwin, MD, Pediatrician at Children's Mercy Kansas City

Dana Bakula, PhD, Pediatric Psychology Fellow at Children's Mercy Kansas City

## **TARGET AUDIENCE**

This series is aimed at school nurses, staff and administrators. Anyone else interested in the topic is also welcome to join.
