

BILLING TIPS

Online and Applied System for Intervention Skills (OASIS)

The following codes and modifiers are examples, and may vary by provider

- Identify appropriate billing codes for provider service
 - often the same code as in-person service, for example:
 - Family Psychotherapy with Patient (90847)

- Some clinics may find it useful to bill telemental health visits using an **additional code** or **modifier** to offset technology costs, for instance:
 - **Interactive Complexity (90785) + GT modifier**

- Check **state regulations** for billing telemental health services
 - Consult CCHP

- For telemental health reimbursement:
 - Check with Medicaid, Medicare and other health insurance providers
 - Consider federal grants, local funding, and private pay if insurance coverage is not an option
 - See more from the Telehealth Resource Center
