

BILLING TIPS

The following codes and modifiers are examples, and may vary by provider

- Identify appropriate billing codes for provider service
 - often the same code as in-person service, for example:
 - Individual Psychotherapy 60 min (90837)
- Some clinics may find it useful to bill telemental health visits using an **additional code** or **modifier** to offset technology costs, for instance:
 - **Interactive Complexity (90785)**

- Check **state regulations** for billing telemental health services
 - Consult CCHPCA
- For telemental health reimbursement:
 - Check with Medicaid, Medicare, and other health insurance providers
 - Consider federal grants, local funding, and private pay if insurance coverage is not an option
 - See more from the Telehealth Resource Center
