

BILLING TIPS

Child & Adolescent Telepsychiatry

The following codes and modifiers are examples, and may vary by provider

- Identify appropriate billing codes for provider service
 - often the same code as in-person service, for example:
 - Established Patient Level III code (EST 3, 99213)

- Some clinics may find it useful to bill telemental health visits using an **additional code** or **modifier** to offset technology costs, for instance:
 - Medicare & Medicaid: Telehealth Place of Service (POS) Code "02"
 - Private Insurance: POS Code "95"

- Check **state regulations** for billing telemental health services
 - Consult CCHP

- For telemental health reimbursement:
 - Check with Medicaid, Medicare and other health insurance providers
 - Consider federal grants, local funding, and private pay if insurance coverage is not an option
 - See more from the Telehealth Resource Center
